***Taking off our shoes to go outside!***

## Strategies to Promote at Home Learning

- **For physical and motor development**
- Provide toddler with opportunities and supervision for visits to playground and parks to exercise and play on various types of equipment.
- Provide toys and materials that offer practice for fine motor skills and eye-hand coordination, such as puzzles, pegs, and pegboards, blocks, construction toys, beads to string and lacing cards.
- Provide opportunities for toddler to develop and use self help skills, such as feeding and dressing self.
