When to keep a child home from Playhouse

Here are some quick reminders of when to keep your child home:

- Fever of 100.0 or greater
- Vomiting or diarrhea
- Cough that interferes with or limits your child's activity or play

If these symptoms are present, please keep your child home for 24 hours after the last episode occurs and your child has been fever free *without the use of Tylenol or Ibuprofen* as well. Also, please label your child's outdoor clothing with first and last names or initials.

We hope that your winter is safe and healthy!

☺ Ms. Matthee & Ms. Alyssa

Skill to work on with your child:

Practice saying/writing address and phone number.
